

Daniel Farmer

MDS Section GG functional Scores

06 - Independent

Complete the activity by him/herself with no assistance from a helper

05 - Setup or clean-up assistance

Helper sets up or cleans up; patient completes activity. Helper assists only prior to or following the activity.

04 - Supervision or touching assistance

Helper provides verbal cues and/or touching/steadying and/or contact guard assistance as patient completes activity. Assistance may be provided throughout the activity or intermittently.

03 - Partial/moderate assistance

Helper does LESS THAN HALF the effort. Helper lifts, holds, or supports trunk or limbs, but provides less than half the effort.

02 - Substantial/maximal assistance

Helper does MORE THAN HALF the effort. Helper lifts or holds trunk or limbs and provides more than half the effort.

01 - Dependent

Helper does ALL of the effort. Patient does none of the effort to complete the activity. Or the assistance of 2 or more helpers is required for the patient to complete the activity.

Outcomes Matter

Mr. Daniel Farmer is a 69-year-old male that was admitted to Park Manor of Conroe after his Hospital stay. He was admitted for Encephalopathy, Humerus Fracture, and needing IV antibiotics.

Our great nursing team worked with Mr. Farmer and his doctors to knock out his infection and get him back to his motorcycle.

Mr. Farmer was promptly evaluated by Physical and Occupational Therapies. He was only able to walk 20 feet with a hemi walker, and needed help to get dressed, move around in bed, and go to the bathroom. He was NWB on his fractured arm so he needed to learn how to accomplish his goals one handed. Daniel worked persistently with all the therapists to get moving again and fulfill his goal of going home.

In just 28 days Mr. Farmer was Independently walking 300+ feet with no walker of any kind.

He lives on the second floor of his building and was able to work and become independent with 16 stairs. In 41 days, he was able to learn how to independently get dressed, use the bathroom and complete all his ADLs/IADLs with 1 arm. It will still be several weeks before he can use that arm again, but he conquered his goals and was able to return home Independently. He may need rehabilitation again when he has another surgery on his elbow and would not hesitate to come to Park Manor of Conroe.
