

Jesse Meadows

MDS Section GG functional Scores

05 - Independent

Complete the activity by him/herself with no assistance from a helper

04 - Setup or clean-up assistance

Helper sets up or cleans up; patient completes activity. Helper assists only prior to or following the activity.

04 - Supervision or touching assistance

Helper provides verbal cues and/or touching/steadying and/or contact guard assistance as patient completes activity. Assistance may be provided throughout the activity or intermittently.

03 - Partial/moderate assistance

Helper does LESS THAN HALF the effort. Helper lifts, holds, or supports trunk or limbs, but provides less than half the effort.

02 - Substantial/maximal assistance

Helper does MORE THAN HALF the effort. Helper lifts or holds trunk or limbs and provides more than half the effort.

01 - Dependent

Helper does ALL of the effort. Patient does none of the effort to complete the activity. Or the assistance of 2 or more helpers is required for the patient to complete the activity.

Outcomes Matter

Mr. Jesse Meadows is a 85-year-old male that was admitted to Park Manor of Conroe after his Hospital stay. He was admitted for Atrial Fibrillation, Pacemaker and a Knee injury.

Our great nursing team worked with Mr. Medows and his doctors to take care of his medical needs. Meanwhile Mr. Meadows was promptly evaluated by Physical, Occupational, and Speech Therapies. He was able to walk 100 feet with a walker, and needed help to get dressed, move around in bed, and go to the bathroom. He is on oxygen and was not able to participate for extended periods of time. Daniel worked constantly with all the therapists to get moving again and fulfill his goal of going fishing.

In just 11 days Mr. Meadows was Independently walking 300+ feet with a walker, is completely independent with all ALDs and is ready to go catch a record-breaking bass. He enjoyed his time at Park Manor of Conroe and would recommend us to anyone who needed Therapy.
