

# Mitchell Wolf

MDS Section GG functional Scores

- 06 - Independent**  
Complete the activity by him/herself with no assistance from a helper

---

- 05 - Setup or clean-up assistance**  
Helper sets up or cleans up; patient completes activity. Helper assists only prior to or following the activity.

---

- 04 - Supervision or touching assistance**  
Helper provides verbal cues and/or touching/steadying and/or contact guard assistance as patient completes activity. Assistance may be provided throughout the activity or intermittently.

---

- 03 - Partial/moderate assistance**  
Helper does LESS THAN HALF the effort. Helper lifts, holds, or supports trunk or limbs, but provides less than half the effort.

---

- 02 - Substantial/maximal assistance**  
Helper does MORE THAN HALF the effort. Helper lifts or holds trunk or limbs and provides more than half the effort.

---

- 01 - Dependent**  
Helper does ALL of the effort. Patient does none of the effort to complete the activity. Or the assistance of 2 or more helpers is required for the patient to complete the activity.

# Outcomes Matter

Mr. Mitchell Wolf is a 77-year-old male that was admitted to Park Manor of Conroe after his Hospital stay. He was admitted for Femur Fracture.

Our great nursing team took care of the medical issues and pain, so that Mr. Wolf could focus on getting stronger. He was promptly evaluated by Physical and Occupational Therapies. He was only able to walk 20 feet, and needed help to get dressed, move around in bed, and go to the bathroom. Mitchell worked persistently with all the therapists to get moving again and fulfill his goal of going home.

In just 30 days Mr. Wolf was able to return home Independently. He enjoys his long walks of over 300 feet to get out in the yard and garage to work on his hobbies. He is glad to be going home but says he wouldn't hesitate to come to Park Manor of Conroe again if he needs to.
