01 - Dependent Helper does ALL of the effort. Patient does none of the effort to complete the activity. Or the assistance of 2 or more helpers is required for the patient to complete the activity.

Mrs. Jimmie Goodman is a 96-year-old female that was admitted to Park Manor of Conroe after her Hospital stay. She was admitted for A-fib and heart failure.

Our nursing staff looked after of the medical issues, so that Jimmie could focus on getting stronger. She was promptly evaluated by Physical, Occupational and Speech Therapies. She was very debilitated from her hospital stay. She was not able to walk, Max assist to dress herself and move around in bed. Evelyn worked steadily with all the therapists to get moving again and fulfill her goal of going home.

In just 16 days Mrs. Goodman was able to return home and reached her goals. She is able to walk over 150' independently with a walker, climb 4 stairs and to dress herself, and move about her home. She said it was fun and if she has to come back at later age then she would be glad to.
